Camacho And Cranston Discuss Local Employment

Julian Camacho, Democratic candidate for Congress, met in Washington recently with Senate and House congressional leaders. In the meetings, Camacho focused attention on employment conditions in the 16th Congressional District.

Implementation of the Comprehensive Employment and Training Act, which recently became law, was discussed. Camacho called attention to the "effective leadership of Senator Cranston and other Democratic senators and congressmen who sponsored the Act."

Camacho and Cranston

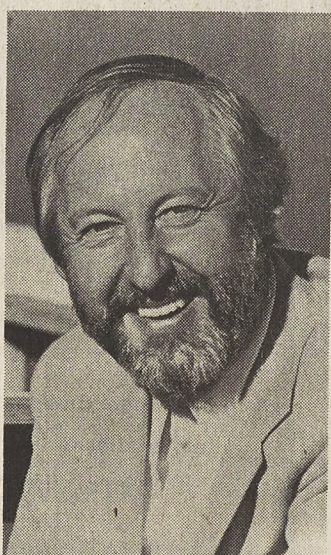

discussed the possibility of funding for 16th C.D. employment programs. Camacho inquired about the \$600 million authorized for public service employment programs in 1974 and the first half of 1975, and was told that the funds are available to state and local governments when unemployment is 5.5% or higher for three consecutive months. California would qualify under these conditions, Camacho was assured.

Camacho expressed alarm at the high unemployment rate in the 16th C.D., attributing the situation to "Nixon economics,

which has brought on inflation, recession, and unemployment all at the same time."

"The unemployment rate, in the 16th C.D. is much higher than the national average," Camacho told Senator Cranston. "While the unadjusted unemployment rate nationally was 5.6% in January, 1974, San Benito County's unemployment rate was a staggering 16.7%," Camacho pointed out that "only San Luis Obispo, of all four counties in the Congressional District, did not exceed the national average in January." The San Luis Obispo figure was 5.4%, while that of Monterey County was 7.5% and Santa Cruz County 9.7%."

Morgan Flagg To Oppose Burt Talcott

Morgan Flagg

Morgan Flagg, Democrat of Monterey County, formally announced his candidacy to fill the 16th Congressional seat of Burt Talcott.

In making his announcement, Flagg stated that he is convinced that the people of the 16th District want Talcott retired from office. He further stated that it is essential that the Democratic Party present candidates in the primary that offer real alternatives to Talcott's record.

In a meeting with Ministers and community leaders, Flagg stated that he intends to conduct an aggressive campaign and that he needs the support of every citizen who is concerned about the decay in government and the complete loss of confidence in

the upper echelon of the highest office in the nation.

"The corruption, fraud, and cheating on all levels of the Nixon administration, requires a Congress that can put an end, once and for all, to this kind of action that has caused the American people to lose confidence in Government, and has caused some of the citizens to develop an apathy towards the total voting system," he said.

"I shall, with your help, speak to the citizens in your churches, and at every gathering you permit me to. If you don't permit me, then I shall stand on the street corners and catch them as they pass by. I am prepared to spend much time in Seaside, for I believe the hub of the success of my campaign lies in this city."

Flagg stated he intends to have a headquarters in Seaside, comprised of as many people as there are races in Seaside. This would continue if he is elected, he said, and that he would be available to all the citizens to satisfy their every needs.

"It is my intent to conduct an aggressive campaign and as my view become known, the voters will decide that we have one less attorney in Congress and one more business man. And this would be a good thing for Government," he said.

He has had numerous exhibitions and publications in Europe and the United States. The series of paintings being shown through April 28 illustrate his belief

Solution To Emergency Loan Problem Sought

State Department of Benefit Payments Director David B. Swoap said recently he is working with federal officials to develop a long-term solution to the problem of providing emergency loans to aged, blind, and disabled Californians whose welfare checks are delayed.

Currently two emergency loan procedures are in operation, one an advance payment system run by the Social Security Administration, which is responsible for the regular monthly aid checks, and the other administered by county welfare departments based on state legislation.

"The two programs are not working well together. I'm sure we can find a better way," Swoap said.

"I have met with Social Security Administration Deputy Commissioner Arthur hess in Baltimore and can report that there is a willingness at the federal level to find a solution."

NPS Plans Science Fair

A high school science fair and competition will be jointly sponsored by the Naval Postgraduate School (NPS) and the Navy League Council of Monterey in May 1974. The event will take place on the Navy school campus on May 24 from 12 noon to 6 p.m. Students regularly enrolled in 10th, 11th and 12th grades in Monterey County public and private high schools and high schools under the Diocese of Monterey are eligible to participate.

The Science Fair will feature scientific displays, demonstrations, and models developed by the students and an awards ceremony for winners.

"Our state-county emergency loan program is operating solely to fill the cracks in the federal procedure. To my knowledge no other state has gone as far as we have in using its state and county funds to help out the federal government."

"Instead of expanding California's involvement still further, we must five more of the responsibility to the entity charged with running the program - the Social Security Administration," he said.

Swoap said he is also working for a federal solution to the emergency loan program's heavy drain on county funds. The state estimates that more than \$5.1 million has been loaned to recipients statewide and less than \$1.7 million has been returned to counties making the loans. One and a half million dollars in state money is available to reimburse counties for uncollectable loans.

Awards to be made include saving bonds, trophies and ribbons.

Area high school students wishing to participate may obtain entry forms from their high school principals. For additional information, they may write to Superintendent (006), Naval Postgraduate School, Monterey CA 93940 or call 408-646-2023.

Project Concern's Walk For Mankind Helps Make Miracles

In an adobe village 800 miles from here they are still talking about Jose Pedro's miracle. After all, the villagers see signs of it every day.

They see that Jose Pedro can smile now without hiding his mouth. They know he doesn't disappear into the mesquite grove when the other boys come outside to play in the morning.

Jose is back in school and not ashamed anymore. His mouth is just like that of other boys in the village.

The miracle is more than a memory, it is part of the village records. "Thank you Project Concern, thank you for Jose's new face." The villagers passed the proclamation at a town meeting just before Christmas last year. Then there was a mass at the ancient town church.

How do they find out about PROJECT Concern's clinic in Tijuana? According to Dr. Turpin, founder, "a word-of-mouth network that has successfully transmitted hope of medical treatment some 5,000 miles through Latin America into South America."

That is how Jose's grandmother got the word. The man who drives the village water truck told her. So, she made some dried tortillas and jerky, strapped Jose on her back

and started the 800 mile walk to Project Concern's hospital.

She rode a poultry truck for 110 miles; a car once for 75 miles, and walked the last 100 miles, carrying Jose most of the way, "cause his legs gave out".

"Multiply stories like this one by 20,000 and you have the story of Project Concern-Mexico", says Dr. Turpin. "That is how many medical cases are seen at our clinic in the hills above Tijuana each year."

Stories like that of Jose Pedro are becoming more, and more frequent, thanks to the successful Walk for Mankind fund raising efforts such as the one held in Monterey in 1972.

Project Concern operates two domestic medical/dental clinics, an Appalachian program in Central Tennessee and a remote facility for the Navajo Indians in northwestern New Mexico. Overseas, the charity has four clinics in Hong Kong, two hospitals in South Vietnam and a hospital and 10 health stations in Ethiopia. The nonsectarian

charity is totally funded by private sector funds from Walks, individuals, and interested civic and service groups. You too can help by joining PROJECT CONCERN'S "WALK FOR MANKIND", on Saturday, April 6, 1974.

The dollars earned by walking will go directly for PROJECT CONCERN'S many dedicated programs. Also, each walker can designate a local charity to receive 20% of the money he raises. Information about the Walk can be obtained by calling 373-5500, or writing to WALK FOR MANKIND, 883 Abrego Street, Monterey, California.

Bids Are Opened

The California Department of Transportation (CALTRANS) opened bids recently on five projects. Contracts will be awarded by the Department after verification of bids.

In Monterey County, first-stage freeway construction is scheduled for a 7.2-mile section of Route 1 in Monterey County.

The structures will provide interchanges at Reservation Road, existing Route 1 at Neponset, and Molera Road; and undercrossing at Lake Drive.

5 WAYS TO USE LESS ENERGY WASHING & DRYING.

Follow these clean-living guidelines for energy conservation:

1. Fill your dishwasher completely before operating. Partial loads waste fuel and water. Even more savings can be realized by turning off your dishwasher after the final rinse before the drying cycle.
2. Use cold water to rinse dishes and operate your garbage disposer. Don't waste hot water.

3. Use full loads in your clothes washer and dryer, but don't overload.

4. Clean the lint filter in your dryer after every use.

5. Take advantage of special features on your washer that can save energy. For example, suds-savers let you re-use hot water for several loads.

These are just a few of the many ways you can conserve energy.

Semifinalists Named For PG&E Scholarships

Thirteen high school seniors in Pacific Gas and Electric Company's Coast Valleys division have been selected as semifinalists in the company's annual \$64,000 college scholarship program, W.L. Murray, division manager announced recently.

Their selection was based on outstanding scholastic and community service records. They are among more than 4,000 applicants from PG&E's Northern and Central California service area. The students are among 160 semifinalists competing for 16 four-year scholarships of \$4,000 each, according to Dr. David B. Stewart, director of PG&E's educational activities.

He said 12 scholarships will be awarded according to geographical areas. Two will go to high school seniors who have advanced despite social and economic handicaps and

two awards have been set aside for children of PG&E employees.

Each of the 32-runners-up in the program will receive a one-time \$500 scholarship, Dr. Stewart said.

Groups of 10 semifinalists for each of the geographic area scholarships will be narrowed to three in judging by panels of local civic leaders. Candidates in region-wide competition for the special recognition and employee scholarships will be interviewed in San Francisco. One of each three finalists will be awarded a scholarship after final judging in San Francisco in late May.

Students in competition as semifinalists for the regional award in PG&E's Coast Valleys division are:

Kathleen M. Lee, Salinas, Notre Dame High School; John C. Mankins, Santa Maria; Santa Maria High School; Craig S.

Rose, Hollister, San Benito Joint Union High School; Jeffrey L. Neubarth, Atascadero, Atascadero High School; Peter C. Isberg, Salinas, Salinas High School; Susan K. Becker, Lompoc, Lompoc Sr. High School; Dwight D. Agan, Monterey, Monterey High School; Tony F. Heinz, Carmel, Carmel High School; Ronny T. Miyaoka, Salinas, North Salinas High School; and William C. Smith, Monterey, The York School.

Thomas P. Bostick, Fort Ord, Seaside High School is a semifinalist in competition for one of two special recognition scholarships.

In competition for one of two scholarships to be awarded to the sons and daughters of PG&E employees are the following students living in the Coast Valleys division:

Jerry A. Peters, Salinas, Salinas High School; James M. Sverchek, San Luis Obispo, San Luis Obispo High School.

PG&E's scholarship program was established in 1967 in memory of its late board chairman James B.

Black, who in his lifetime inspired many funding efforts in support of higher education. Since its in-

ception the program has awarded 101 scholarships to outstanding high school students.

5 WAYS TO LIGHT RIGHT AND SAVE ENERGY.

You can lighten your electric load by following these basics:

1. Turn off all lights that are not essential.
2. Never use a higher wattage bulb than is necessary to do the job. Where just a little light is needed, replace large wattage bulbs with smaller ones.
3. The wattage of a bulb does not measure the amount of light it gives, but rather the energy needed to light it. (Light is measured in lumens.) One 100-watt bulb gives 50% more light than four 25-watt bulbs for the same amount of energy. So where a large amount of light is needed, it's more efficient to use one large bulb

instead of several smaller ones.

4. Fluorescent lighting is more economical, watt for watt, than incandescent bulbs. Fluorescent lamps give five times the light and last up to 10 times as long as ordinary bulbs. They're cooler, too.

5. Outdoor lighting should be restricted to your minimum needs for safety and security. Don't use lighting for merely decorative purposes.

All PG&E electric customers—no matter where they live—get much of their electricity from power plants fueled by scarce oil and natural gas. So it's important for everyone to help save energy wherever possible.

BOOK
that can
CHANGE your
whole life

Is GOD real to you?
Can you trust HIM?
Is HE near to you?

The Bible tells us we can turn to God for help, for health, for protection. Yet some think these Bible promises are empty. They don't have to be. Today there is a book that is helping many people tune in to the truth of God's nearness, His power and fatherliness. That book is

**Science and Health
with Key to the Scriptures.**

At a low point of poverty, hopeless illness and loneliness, its author, Mary Baker Eddy, saw that God can be trusted and loved. She found that God heals the sick when we love and understand Him. A deep student of the Bible, she discovered a Science based on living the Christianity Jesus taught. She won her freedom from poverty and disease and from her loneliness. Then she wrote down what she learned for the whole world.

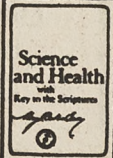

By reading and studying this powerful book along with the Bible, men and women throughout the world have found that God can and will help them. These people have solved housing problems, gained opportunities for better education. They've won freedom from poverty, overcome racism. They've discovered what it really means to be the children of God.

Sillas Blasts Nixonomics

Democratic Party Secretary Herman Sillas, angered by a recent forecast of a possible 25 percent unemployment rate for Black Americans, blasted what he called "another intolerable disaster of Nixon's game plan for working people," and called for a united effort to

head off "the ravages of Nixonomics in those areas where it hurts the most."

He was referring to a prediction yesterday of Carlton B. Goodlet, President of the National Newspaper Publishers Association, that the energy crisis will produce an 8.5

percent unemployment rate nationwide, and up to 25 percent among Black Americans, who suffer three to four times the national average in unemployment.

Mr. Sillas, California State Chairman of the United States Civil Rights Commission and Democratic candidate for Secretary of State, said "it is the responsibility of every elected official to help assure that the hardships of unemployment are eliminated. The Black community simply cannot survive another massive disaster of this type. Since Mr. Nixon cannot or will not help, we must call upon responsible officials at other levels to carry out their mandates."

Seeks Board Of Equalization Position

Monterey County Supervisor Warren Church has announced he is seeking election to the State Board of Equalization for the Central California District. Supervisor Church said, "I am seeking the office in order to change the method of valuing utilities for tax purposes. Utilities are now valued at a figure usually near that of original cost less depreciation. The market value set by the Board of Equalization should be the current true market value for utilities like it is for all other property taxpayers." Church is also concerned about methods of deriving County assessed ratios.

Church, a Salinas Democrat, is seeking the post of the First Equalization District now held by George Reilly of San Francisco. Reilly was first elected in 1938 and will have served thirty-six continuous years at the conclusion of the current term. The district covers a total of twenty-one counties. It stretches from San Francisco to northern Los Angeles County along the coast, including three valley counties and nine mountain counties.

A third term supervisor,

Church, 44, has twice served as Chairman of the Monterey County Board. He is a past President of the nine county Central Coastal Supervisors Association, a current member of the Central Coast Regional Coastal Zone Conservation Commission, former member of the Central Coastal Regional Water Quality Control Board, and former Chairman of the Monterey County Democratic Central Committee.

Search On For Needy Who Qualify For Aid

Hundreds of low income residents in the Salinas-Monterey area who are 65 or over, blind or disabled, have failed to apply for financial aid to which they are entitled under a new Social Security program. Starting April 1, groups of volunteers from the Red Cross and other organizations started seeking them out and in some cases, the aid may nearly double incomes.

Prior to January, the aid to these people was administered by state and county social welfare departments. When aid payments were taken over by the Social Security Adminis-

tration, the names of those already receiving financial help were transferred to federal roles.

Congress in 1972 guaranteed a minimum income to these Americans. Before January 1, the old program only benefitted the aged and persons over 18 who are blind and disabled; the new program carries no age restrictions for this group.

In Monterey County, there are many volunteers searching these people out. A special telephone at the Red Cross has been installed to handle questions and referrals. The number is 424-1054.

Fraternity Reorganizes

Twelve members of Kappa Alpha Lambda graduate chapter of Alpha Phi Alpha fraternity met at the Presidio Officers' Club recently to reorganize. John Phillips of Salinas served as presiding officer over the brunch meeting that outlined the basic programs the fraternity hope to establish this year which includes promotion of youth activity, scholarship and community interest in voting.

Students Named To Who's Who

Forty-two Monterey Peninsula College Students have been named to "Who's Who Among Students in American Junior Colleges."

The announcement came from MPC Student Activities Director Edward J. Norris who said that the nominations list "represent less than a half of one percent of the students in the sophomore class."

"Students are selected primarily on the basis of leadership, participation, and extracurricular activities with scholarship potential as a secondary consideration," Norris said. Get Care Guide From State

HOME LAUNDRER shows typical care label ONLY. NO WRING, NO TWIST. Such phrases found on clothing and fabric labels provide rather vague care instructions.

Unless consumers know what the various phrases signify they may be spending more time, effort, and money for clothing care than actually required.

A single page "Consumer Care Guide for Apparel," which explains care labels now required by law on garments and fabrics, has been produced by the Consumer Affairs committee of the American Apparel Manufacturers Association.

The guide has two columns of information, one

tells if the item can be washed and ironed (and how), or whether it should be dry-cleaned.

According to David M. Hayes, executive secretary of the State Board of Fabric Care, California Department of Consumer Affairs, "This guide is right to the point and can help the consumer." The guide is offered to all garment and fabric retailers and the Board is encouraging them to make it readily available to consumers by featuring it in a new public service television spot now being distributed statewide.

The Department of Consumer Affairs urges consumers to ask for the guide and if it is not available request the store to obtain a supply from the American Apparel Manufacturers Association, 1611 North
